

# Cal OES Daily Situation Report

## June 2, 2018

The last load of Thomas Fire debris was hauled out on 06/01/18. A huge thanks to CalRecycle, Ventura OES, County of Ventura, and the many other local partners, contractors and administrative staff that made this phase of recovery so quick.

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

### Cal OES COASTAL REGION

- Nothing significant to report.

### Cal OES INLAND REGION

- Nothing significant to report.

### Cal OES SOUTHERN REGION

#### **Water Shut Off - Emergency Repair, City of Avalon (Santa Catalina Island), Los Angeles County (FINAL)**

On 06/01/18 at 1436 hours, the California State Warning Center (CSWC) received report from the Cal OES Southern Region Duty Officer (SDO) that a break in a sewer line located at the Pebbly Beach Lift Station occurred at approximately 1200 hours in the City of Avalon, Los Angeles County. As part of emergency repair, the water and sewer system were shut down, affecting all residential and commercial customers in the city.

- The population of the City of Avalon is approximately 4,000.
- Pebbly Beach Rd. is open to essential travel only.
- Portable restrooms are available at the base of the Green Pier, Cabrillo Mole, Casino Dive Park and near Wrigley Stage.
- Pallets of bottled water are available at the base of the Green Pier for the public to use.
- There are no evacuations.
- There are no requests for state assistance.
- The City of Avalon activated their Emergency Operations Center (EOC), Los Angeles County is monitoring.

Per the SDO as of 06/02/18 at 0834 hours:

- Fresh water and salt water services were turned back on as of 06/01/18 at 1945 hours.
- Per the Los Angeles County Duty Officer, confirmation received on 06/02/18 at 0824 hours, services have been restored for the whole city.

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

### **Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties**

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved.
- CDFA confirmed that there is no public health risk due to this virus.
- [1 AmeriCorps San Diego and 1 San Bernardino County volunteer Spanish language interpreter](#) responded to conduct surveillance (education/outreach), with two more arriving on 06/04/18.
- The USDA National Incident Management Team (IMT) arrived on 06/01/18 and are teamed up with CDFA personnel at the CDFA Ontario District Office. Each section is being briefed by CDFA personnel.

### **Activations**

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

### **Deployments**

- 1 Cal OES Science and Technology Advisor deployed on 05/29/18 until 06/01/18 to the CDFA/USDA ICP as a Biosecurity Infectious Disease Subject Matter Expert with an operational period of 0700-1900 hours.
- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

### **Logistics**

Per the Cal OES Southern Region AREP on [06/02/18 at 0809 hours](#):

- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County.
  - [The Agency Representative coordinated with the County and city of Ontario for possible use of a facility at the Ontario International Airport. The information was forwarded to the Logistics Chief and ICP Incident Commanders.](#)
  - [One facility will be inspected on 06/02/18 as a potential location.](#)
  - [The negotiations continue.](#)

# WEATHER SYNOPSIS BY REGION

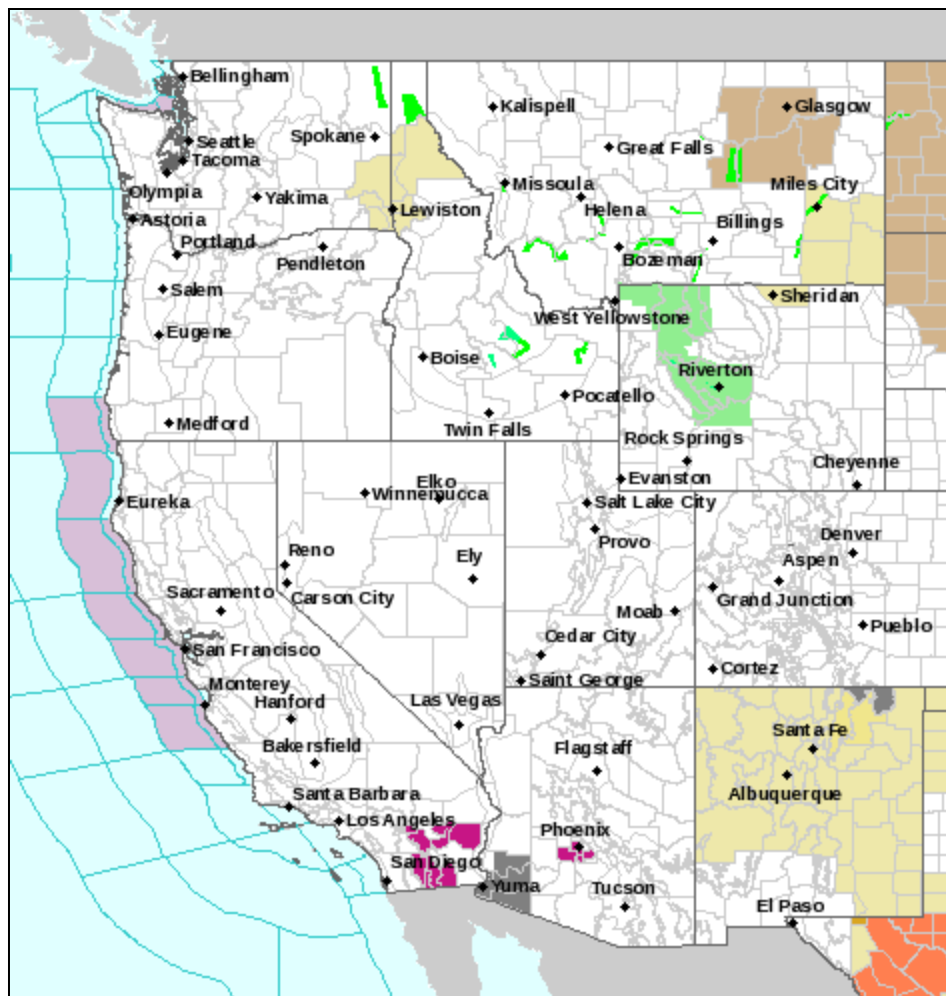

## **NORTHERN CALIFORNIA**

An upper level ridge has begun to build into Northern California, bringing a warming airmass to the region. Very little in the way of stratus is being detected up along the California coast early this morning, and onshore flow is light through the Delta. As such, temperatures across the forecast area are running 5 to 10 degrees warmer than 24 hours ago. High pressure will remain in control across the region today and into Sunday. Look for high temperatures to reach the mid 90s to lower 100s across the Valley both days this weekend, with 70s to 90s over the mountains. These forecast high temperatures are roughly 10 to 15 degrees warmer than normal for this time of year.

## **SOUTHERN CALIFORNIA**

A ridge of high pressure over the region coupled with weak offshore flow will support fair skies and above normal temperatures this weekend, with coastal fog and low stratus hugging the coastal areas tonight. A weak trough of low pressure moving into the region mid-week will increase coverage of night and morning low clouds further inland, with temperatures cooling to near normal for most areas.
